

VNESHEKONOMSTRAKH is a publicly-traded insurance company mainly focusing on VOLUNTARY HEALTH INSURANCE

VNESHEKONOMSTRAKH combines the best of Russian medical traditions, broad cooperation with leading Russian and foreign medical centers, clinics, medical and research institutes, as well as hi-end medical equipment. Taking into account the increased demand for quality, the company is also working on own projects.

One of such projects is insurance packages for exchange students for the period of their studies at universities in Moscow, Moscow Region or other Russian regions. Profound experience in working with international students helps us to tailor insurance packages for the particular needs of any partner university. The packages are structured each in a certain way to guarantee medical aid to every client as soon as possible.

All medical packages fully comply with the Russian legislation and perfectly meet the requirements of the dean's offices for international students at the universities.

The basic principles of the Voluntary Medical Insurance Program are:

- medical aid available for international students, including specialized diagnostics methods;
- timely examination, diagnostics and therapeutic action, immediate response when emergency hospital admission is needed;
- medical aid quality control that secures the interests and rights of the insured individuals.

Services provided to the insured individuals at healthcare facilities include:

- outpatient care with emergency dentist care;
- calling a doctor;
- emergency medical services;
- hospital service in case of emergency medical indications;
- 24-hour medical service for students.

Additional services provided as part of the Medical Insurance Program:

- accident insurance
- the repatriation of patients and the deceased.

The main values of **VNESHEKONOMSTRAKH** are: perfect credibility, respectability, high professionalism and a customized approach to every client bearing all his reasonable requests in mind.
